❝ I'm a Pune based web developer and designer. I passionately move pixels and lines of code to craft clean, responsive, and user-friendly websites. My current weapons of choice are Node.js, Asp.Net MVC, Photoshop, HTML, Javascript & CSS.

❝ Being both an engineer and designer, I help clients bring their ideas into reality. Contact me today and I would love to hear about your business

MY SERVICES

WEB DESIGN
I simply love web design, all my work starts from a blank canvas so you will never have a web site that comes from a pre made site template.
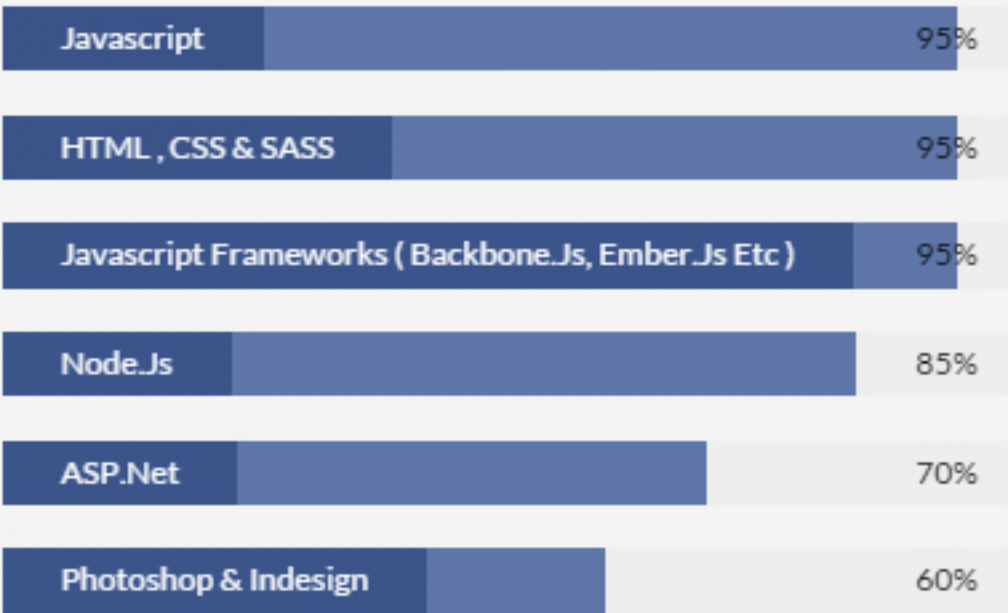

WEB DEVELOPMENT
I ensure all my web code meets the highest web standards that works across all major browsers and is S.E.O friendly.

LINUX SERVER SETUP
I'm experienced with setting up, maintaining, and troubleshooting Linux servers.
